BedShaper Attachment Adds Versatility to Mowers

The Little Wonder BedShaper® is available as a front-mount attachment for both Grasshopper® & Walker Mowers. Making short work of even the largest edging, bed shaping, and trenching projects. This innovative concept will make grounds maintenance faster and easier... much easier! The patented BedShaper attachment creates a clean, sharp edge along flowerbeds, trees, sand traps, and the BedShaper is ideal for the construction of new beds.

The BedShaper offers exceptional, precise control due to the blade position being beside the mower drive wheel, allowing the blade to pivot with the wheel for smooth flowing contours. With cutting depths from 1 – 4.5 inches, the Bedshaper is versatile enough to handle most edging, bed shaping or trenching jobs. The BedShaper can reduce edging time up to 75% cutting labor costs and adding to each job's profitability and professional appearance.

The BedShaper is built for rigorous, heavy-duty commercial use. The frame is constructed from welded, formed high gauge steel, and the powerful 16.25" diameter notched blade is made from heat-treated spring steel and is guaranteed against chipping, breaking, bending, and delaminating for life. The angle of the cut and concave shape of the blade leaves a ribbon of soil intact for quick and easy 'tool-free' removal.
