**MANY USES**:
The extreme versatility offered by Little Wonder’s line of blowers makes them ideally suited for a wide variety of jobs - blowing leaves, grass clippings, and thatch, blowing tennis courts dry, cleaning large driveways, stadiums, parking lots and other hard surfaces, precleaning roofs before repair and countless other jobs.

**I. IMPORTANT INFORMATION**

A. **INTRODUCTION**
On behalf of everyone at Little Wonder, we would like to thank you for your purchase of a Little Wonder Gasoline Powered (Petrol-driven) High Output Blower. This professional blower was designed to the highest standards to ensure you many hours of uninterrupted service.

This manual provides the information necessary for safe and efficient operation and service. For your safety, it is critically important that you read and understand this entire manual before operating your blower.

⚠️ **Warning:** The Engine Exhaust from this product contains chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

**B. SERVICE INFORMATION**

**ENGINE**
- Refer to the enclosed Engine Manual provided by the engine manufacturer.
- Or an authorized repair service of the manufacturer.

**OTHER COMPONENTS**
- Contact your local Little Wonder dealer.

**C. SPECIAL SAFETY INFORMATION**

⚠️ **WARNING**  ⚠️ **DANGER** ⚠️
ATTENTION; THIS SYMBOL POINTS OUT OUR MOST IMPORTANT SAFETY INSTRUCTIONS.

WHEN YOU SEE THIS SYMBOL, ⚠️ HEED ITS’ WARNING!!
STAY ALERT!!

⚠️ **WARNING**  ⚠️ **DANGER** ⚠️
TO REDUCE THE POTENTIAL FOR ACCIDENTS, COMPLY WITH THE SAFETY INSTRUCTIONS IN THIS MANUAL.
FAILURE TO COMPLY MAY RESULT IN SERIOUS PERSONAL INJURY AND/OR EQUIPMENT AND PROPERTY DAMAGE.

**II. SAFETY AND WARNINGS**

⚠️ **WARNING**  ⚠️ **DANGER** ⚠️
IMPROPER USE OR CARE OF THIS BLOWER, OR FAILURE TO WEAR PROPER PROTECTION CAN RESULT IN SERIOUS INJURY.

READ AND UNDERSTAND THE RULES FOR SAFE OPERATION AND ALL INSTRUCTIONS IN THIS MANUAL.

WEAR HEARING AND EYE PROTECTION.
A. SAFETY DECALS (LABELS)

An important part of the safety system incorporated in this blower are the warnings and informational decals (labels) found on various parts of the blower. These decals (labels) must be replaced if they become illegible due to abrasion, etc. It is your responsibility to replace the decals (labels) when they become hard to read. The location of these decals (labels) and their part numbers for ordering are shown below.

Caution: Thrown objects.

Keep bystanders away.

Always wear eye and ear protection.

Location of label on blower

Before performing any service or maintenance, disconnect spark plug wire. Make sure throttle is in STOP position.

Read and understand the Owners Manual. Pay particular attention to all sections regarding safety. Store your Owners Manual in a safe place.

Keep hands and feet away from air discharge areas. Rotating fan will cause serious injury.

### V1. Parts Explosion
**IV. OPERATING INSTRUCTIONS**

Refer to Engine Manual for Engine Operation.

Little Wonder recommends using SAE 30 Oil. The use of multi-viscosity oil will result in high oil consumption and possible engine damage.

Leaves, thatch or other debris can be directed into windrows or piles, by simply maneuvering the unit and directing the flow of air accordingly.

Air flow can be directed to the side or front by the two-position deflector. The front discharge position is used to remove debris from along walls, fences, etc. the side discharge position is used to form windrows or piles.

The horizontal deflector directs air downward to “chisel” under wet, heavy leaves and litter. The velocity is regulated by the throttle control.

Moving the deflector to the upper hole allows for a greater volume of air to be directed downward. Moving the deflector to the lower hole allows for a greater volume of air to be directed upward. To reduce windrowing or to blow over obstacle, point deflector upward.

Slight changes in deflector will have a big effect on air flow. Experiment until you find the best position for your needs.

For best performance, be sure engine recoil starter assembly, the blower intake and outlet areas are clear and free of leaves or other debris.

**V. MAINTENANCE INSTRUCTIONS**

1. Keep all nuts, bolts, and screws tight.
2. Never store the Blower with fuel in its fuel tank inside a building or in a confined space where fumes may reach an open flame or sparks.
3. Always refer to the instruction manual for important details if the product is to be stored for an extended period.
4. Engine - 4 cycle. (Refer to engine manufacturer’s operating instructions for fuel recommendations and additional information.)
5. Tires - Tubeless. Inflate to air pressure of 30 P.S.I.
6. Labels should be inspected before each use. Replace damaged labels immediately.

To prevent accidental starting, remove spark plug wire when servicing engine or equipment.

Check oil level regularly. Be sure correct oil level is maintained. Check oil level after every 5 hours of operation, or daily, before starting engine. Use SAE 30 Oil.

Change oil after first 5 hours of operation. Remove drain plug and drain oil while engine is warm. Replace drain plug. Remove oil fill plug and refill with new oil. Start and run engine at idle for 30 seconds. Stop engine. Wait 30 seconds and re-check oil level. If required, add oil to overflowing at oil fill plug.

**DIRECTIONS FOR FAN REMOVAL:**

(This procedure must be done by qualified Little Wonder dealer)

1. Remove intake guard and front panel.
2. Remove bolt securing fan to engine crankshaft.
3. The fan has a 3/4-16 nut welded on the fan hub. Insert a 3/4-16 grade 5 bolt (or better) and jack or push the fan off the engine. [Little Wonder part #910515 pressure screw is recommended.] In some instances, it may be necessary to apply heat in area of fan hub as Loctite 242 has been used to secure the fan to the engine crank shaft. Be careful not to overheat.
4. Use a new bolt (P/N 910508 or P/N 910518) and Loctite 242 to insure a secure fit upon re-assembling.
B. General Safety Rules

1. Read and understand the owner's manual. Pay particular attention to all sections regarding safety. Store your owners manual in a safe place.

2. WARNING - KEEP CHILDREN, PETS, and BYSTANDERS AWAY - Do not permit children to contact blower. Keep children a safe distance from work area. Never allow a person mentally ill, under influence of alcoholic drinks or drugs or too young in age, to operate the blower.

3. DON'T OVERREACH OR STAND ON UNSTABLE SUPPORT. - Keep good footing and balance at all times.

4. MULTIPLE OPERATORS - Keep a safe distance between two or more operators when working together simultaneously.

5. WARNING - Fan coasts after turn off.

C. Warnings - Don't's

1. DANGER ROTATING FAN - KEEP HANDS AWAY. DON'T attempt to remove materials from intake or discharge when blower is running.

2. DANGER - DO NOT INSTALL OR REMOVE ATTACHMENTS WHILE BLOWER IS RUNNING. Turn off engine to make changeover. Be sure throttle is in the stop position, and the blower has come to a complete stop. Remove the spark plug wire before removing material.

3. DO NOT POINT THE BLOWER OUTLET in the direction of people, cars, glass, or other similar items which could be injured or damaged by blown debris.

4. DO NOT ATTEMPT TO REPAIR BLOWER - Have repairs made by qualified Little Wonder dealer or repairman. See that only Little Wonder and recommended engine manufacturers replacement parts are used.
D. WARNINGS — Do’s

1. DRESS PROPERLY — Do not wear loose clothing or jewelry (jewellery). They can be caught in moving parts. Use of sturdy gloves, non-skid footwear and safety glasses are recommended. Always wear ear protectors where possible. Use face filter to avoid breathing dust.

2. STAY ALERT — Watch what you are doing and use common sense. Do not operate blower when fatigued.

3. KEEP HANDS AWAY FROM AIR INTAKE AND AIR OUTLET CHUTE — Keep both hands on handles when power is on.

4. MAINTAIN AND EXAMINE BLOWER WITH CARE — Follow maintenance instructions given in manual. Do not use the blower if the muffler is defective or missing.

5. STORE BLOWER INDOORS — When not in use, store blower indoors in a sheltered area (a dry place) where it’s not accessible to children. The blower, as well as fuel, should not be stored in a house. Keep throttle in the stop position.

6. BE SURE BLOWER IS FULLY ASSEMBLED — Never operate blower without all guards and deflectors in place. Ensure that all nuts, bolts, screws are installed and properly tightened.

7. ALWAYS KEEP THE THROTTLE IN THE “STOP” POSITION WHEN NOT IN USE. Always keep a safe distance between two or more operators when working together simultaneously.

8. WARNING! IN ORDER TO AVOID ENGINE DAMAGE DUE TO OVER-HEATING OR OVER-REVVING, KEEP ENGINE RECOIL STARTER ASSEMBLY, THE BLOWER INTAKE AND OUTLET AREAS, OR HOSE ACCESSORIES CLEAR AND FREE OF LEAVES OR OTHER DEBRIS.

E. ENGINE/FUEL WARNINGS - Don’ts

WARNING DANGER
HANDLE FUEL WITH CARE, IT IS HIGHLY FLAMMABLE. FUELING (FUELLING) A HOT ENGINE OR NEAR AN IGNITION SOURCE CAN CAUSE FIRE AND RESULT IN SERIOUS PERSONAL INJURY AND/OR PROPERTY DAMAGE.

1. Do not smoke while handling fuel.
2. Do not refuel a hot or running engine.
3. Do not fill tank indoors.
4. CAUTION — Do not start or run engine indoors as poisonous carbon monoxide is emitted.
5. Do not operate in un-ventilated area.
6. Do not use the blower when electric system causes spark outside the cylinder. Check spark plug from time to time. When checking, keep plug a safe distance from cylinder to avoid burning of evaporated fuel from cylinder.
**F. ENGINE/FUEL WARNINGS - DO’S**

HANDLE GASOLINE [PETROL] WITH CARE. IT IS HIGHLY FLAMMABLE.

Refuel before starting work.

**Always** use fresh gasoline [petrol]. Stale gasoline [petrol] can cause leakage.

**Always** pull starter cord slowly until resistance is felt. Then pull cord rapidly to avoid kick-back and prevent arm or hand injury.

**Always** operate engine with spark arrestor installed and operating properly. The use of spark arrestor mufflers is required by law in the state of California [Section 4442 of the California Public Resources Code], as well as in other states or municipalities. Federal laws apply on federal lands.

**Replace** gasoline [petrol] cap securely. If fuel is spilled move blower and fuel container from area and do not create a source of ignition.

**Avoid** spilling fuel or oil. Always wipe unit dry before using. Move at least 10 feet away from the fueling [fuelling] point before starting engine.

**Always** store gasoline [petrol] in an approved container. Fill tank outdoors with extreme care.

**III. BLOWER ASSEMBLY INSTRUCTIONS.**

*NOTE : Numbers in brackets (#) represent Key Numbers shown on Parts List, and parts explosion. See pages 9-11.*

A. Install lower handles (30) on top of deck (32, 33). Secure with four cap screws 5/16-18 x 1 3/4 (34), four 5/16 flat silver washers (31), and four 5/16-18 nylon nuts (2), finger tight.

B. Install upper handle (17) with four cap screws 5/16-18 x 1 3/4 (34), eight 5/16 washers (31), and four 5/16-18 nylon nuts (2), finger tight. Tighten lower handle nuts and bolts. Tighten upper handle nuts and bolts until the lower handle tubing pinches the upper handle. It will be normal for the lower handle tubing to crush slightly.

C. Attach throttle cable to upper handle with 1/4-20 x 1 1/2" cap screw (19) and 1/4-20 lock nut (22) through hole on upper handle (17). For Briggs and Stratton INTEK series engines, the throttle control will mount on the right hand side. For Honda engines, it will mount on the left. Insert the 10-32 x 3/4" self-tapping screw through the hole of the throttle control and into the pilot hole in the handle and tighten. [NOTE: Over tightening the screw on the left hand mounted controls could cause damage to the control.] Once the 10-32 screw is tightened, go back to the 1/4-20 screw and tighten it enough to get a smooth action in the control. If the throttle does not maintain it’s setting once you start the engine, tighten this screw some more. Connect throttle clip (15) to upper handle.

D. Tilt blower back on handle and install front wheel bracket (51) over the three studs on lower front of blower housing. Secure with three 5/16-18 flange nuts (5).

E. Insert pneumatic wheel sleeve (53) in front pneumatic wheel (52). Install pneumatic wheel spacers (54) over the axle sleeve on both sides of wheel and install in front wheel bracket (51). Insert 3/8-16 x 5 1/4 axle bolt (50) through wheel bracket and axle sleeve. Secure with 3/8-16 axle nut (49).
5 YEAR LIMITED SERVICE & WARRANTY POLICY
FOR GASOLINE POWERED (PETROL-DRIVEN)
HIGH OUTPUT BLOWERS

All Little Wonder Gasoline Powered (Petrol-driven) High Output blowers are guaranteed against defects in material and workmanship for a period of FIVE YEARS from date of purchase, when used for RESIDENTIAL SERVICE, or COMMERCIAL SERVICE. Any Little Wonder Gasoline powered (Petrol-driven) High Output Blower or part found to be defective within the warranty period is to be returned to any registered Little Wonder dealer.

Engines for all gasoline powered (Petrol-driven) products are warranted separately by the engine manufacture. Therefore, there are no warranties made, expressed or implied, for engines for gasoline powered products by Little Wonder.

Transportation charges for parts and units submitted for replacement under this warranty must be borne by the purchaser.

THIS WARRANTY shall not be effective if the product has been subject to misuse, negligence or accident, or if the product has been repaired or altered outside of our Southampton factory or authorized repair facility in any respect which affects its condition or operation.

LITTLE WONDER shall not be liable for any special indirect or consequential damages arising from defective equipment. Any implied warranty, including merchantability of fitness for a particular purpose, shall not extend beyond the written warranty period.

THIS WARRANTY shall only be effective if the enclosed Warranty/Registration card is properly filled out and returned to Little Wonder, Div. of Schiller-Pfeiffer, Inc. at time of purchase.
