Durable Engine Options
Available in a durable, Honda® GXV390 and 12.5HP Briggs & Stratton® Vanguard™ Engines

10- and 12-Gauge Formed and Welded Steel
engine base, cutting deck, main frame and control handle construction holds up to the toughest conditions.

Solid Rods
connect the operator to the transmission, park brake, and cutter blade clutch—no cables to break or adjust.

Speed Limiter Dial
allows a firm grip on the control handles right from the start and speed selection while on the go.

Hydrostatic Transmission
offers infinitely-variable, clutch-less speed selection—up to 4.2 mph forward and 1.7 mph reverse.

Professionals Demand Little Wonder.™
Solid rods connect the operator to the transmission, park brake, cutter blade clutch—no cables to break or adjust.

Hydro Brush Cutters navigate through weeds, heavy brush and overgrown vegetation with ease. Our welded steel frame design and engine positioning provide excellent balance regardless of the terrain. And unlike the competition, our hydrostatic transmission offers infinitely-variable, clutch-less speed selection—up to 4.2 mph forward and 1.7 mph reverse. So you can cut your own path at your own pace.

Honda® model features 16-inch bar tread tires are foam filled to prevent leaks and provide excellent traction and ground clearance on rough terrain.

1-inch diameter spindle is supported by top and bottom sealed ball bearings inside a machined steel hub, a heavy-duty welded outer steel flange and a grease fitting to prevent the induction of moisture.

1.5 inches wide, .25-inch plate steel construction skid shoes are adjustable and provide excellent flotation over rough terrain. 10-gauge welded steel deck provides a rugged and deep chamber to cut and chop thick brush.

LITTLE WONDER® Hydro Brush Cutters navigate through weeds, heavy brush and overgrown vegetation with ease. Our welded steel frame design and engine positioning provide excellent balance regardless of the terrain. And unlike the competition, our hydrostatic transmission offers infinitely-variable, clutch-less speed selection—up to 4.2 mph forward and 1.7 mph reverse.
