

LITTLE WONDER®

P/N 4173815 – LITTLE WONDER FRONT WHEEL UPGRADE KIT

WORK INSTRUCTIONS

Intended Use:

The Little Wonder front wheel upgrade kit is intended to be used to replace the original front wheel on all models of the Little Wonder Optimax Blowers. This wheel is recommended to be updated mainly for improved wear and increased life cycle for asphalt and paving applications.

Required Parts:

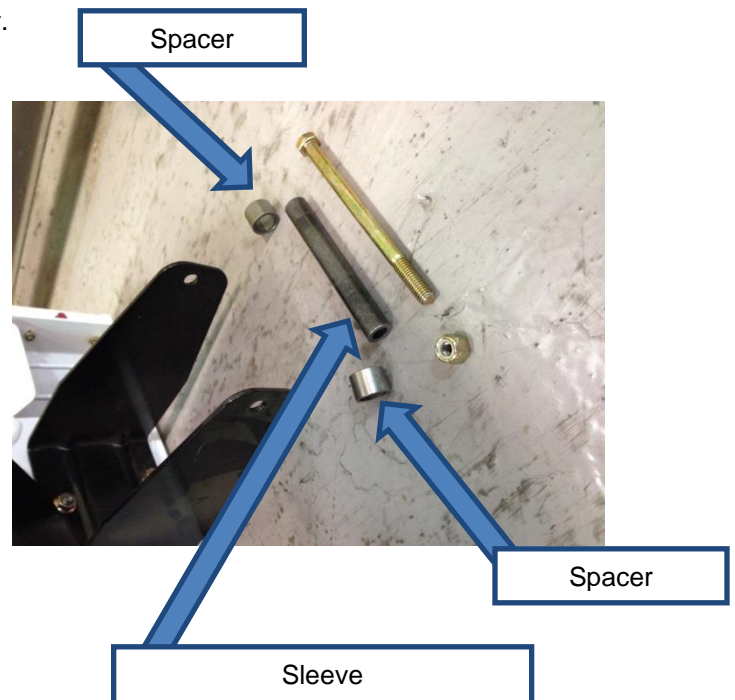

1 - 4173820 – Solid Front Wheel

Installation Instructions:

1. Using two 9/16" wrenches, remove the nut and bolt that goes thru the hub of the wheel. Retain the nut, bolt, sleeve and both spacers for reinstallation of the solid wheel.
2. Install the new wheel by sliding the sleeve thru the wheel hub; slide the spacers over the protruding portion of the sleeve and reinstall the bolt and nut.
3. Fully tighten nut until it is tight against the spacer.
