LITTLE WONDER®

Pro Vac SI

Superior Suction Makes Clean-up a Snap.

Instant nozzle height adjustment from operator's position, for non-stop, pavement-to-turf leaf and debris clean-up

Optimal sized hose with adjustable handle to get debris in tight areas

5-blade, serrated steel impeller technology with up to 5:1 reduction ratio

40-gallon, angled bottom bag with plastic bottom reduces wear and tear

Lightweight and easy to maneuver on and off trailers / trucks

Pro Vac SI shown with optional hose kit

Throated nozzle design engineered for superior suction power

Save time by easily adjusting the nozzle height from the operator's position without stopping.

Angled bag with sewn-in plastic bottom for ease of use and freedom of movement.

Custom-designed ergonomic, foam-gripped handles prevents user fatigue.

Optional 5" diameter hose kit with adjustable handle provides optimal suction and operator comfort.
